

Textiles Assignment

I chose these garment styles because I like the styles and they are comfortable to wear in summer, they don't make you too warm. These styles are simple and practical yet fashionable and fun to wear.

I chose these fabrics because they are lightweight and they are cool in summer and easy care. These fabrics are also quite fashionable, reasonably priced and readily available in shops.

I would have to provide buttons for the summer jacket, rib trim for the tee-shirt, the jacket and the girls top, thread for all the garments, a pre knitted collar for the jacket and a zipper for the shorts.

Evaluation

I think that I have chosen a marketable design.

I am very satisfied with the finished product and I think that I did accurately describe my garment.

I have learned that it is fairly easy to design summer clothes for teenagers
